

SLOW-RELEASE GELS & SOLID ADSORBENTS · 2-STAGE AUTO DETAILING & 4S DEALERSHIP KIT

Automotive Cabin Rapid Air Detox Kit

2-piece automotive interior air remediation kit (250ml cabin spray + heat-resistant cup-holder gel) for 4S dealerships and auto detailing centers.

PATHWAY 250ml Interior Mist + Cup-Holder Gel → Cabin IAQ

TECHNICAL SPECIFICATIONS & OPERATING PARAMETERS

Factory QC Standard · Verified Batch Parameters

Kit Contents	1 × 250ml Cabin HCHO/VOC Spray + 1 × 120g Brushed-Aluminum Cup-Holder Gel + Microfiber Pad
Compliance Standard	Engineered for GB/T 27630 & ISO 12219-1 vehicle interior air quality limits
Thermal Tolerance	Cup-holder gel matrix stable from -15°C to +75°C cabin temperatures
Service Duration	20-minute rapid detailing application + 90-day continuous cabin gel
OEM Customization	Custom dealership branding, laser-engraved aluminum caps, custom box design
Product Grade	High-Capacity Chemisorption & Sustained-Release Grade
Specific Gravity / Density	0.48 - 0.78 g/cm³ (Bulk apparent density)
Flash Point & VOC Content	Non-flammable / Non-combustible under normal indoor conditions · VOC: 0 g/L (Zero VOC emission)
Application Method	Mist 150-200ml across cabin fabrics/carpets, wipe leather, place gel in cup holder
Transport & Customs HS Code	Non-Dangerous Goods (Non-DG for Sea/Air) · HS 3802.10.1000
Quality & Test Compliance	ASTM D2867 / GB/T 12496.8 Iodine & Gas-Phase HCHO Chemisorption (≥ 93.5% enclosed-cavity HCHO & odor capture (60-90 day cycle))
